

REPORT ON VILLAGE WEBSITE & FACEBOOK PAGE FOR ANNUAL PARISH MEETING

The website makes all Parish Council business, meetings, policies, etc. available for residents, advertises Church and Community Centre events, as well as village businesses, and displays historical photographs. It continues to be reasonably well used, with the home page the most popular, followed as last year, by the events listings, then the Parish Council and Community centre pages. There have been over a thousand views over the last twelve months.

The Facebook page is used as a last minute reminder of events, such as Parish Council meetings, fitness classes and food van visits. A Stanstead Village Group has now also been set up, which residents can post onto themselves. This has been used recently to advertise free items and find new homes for them.
